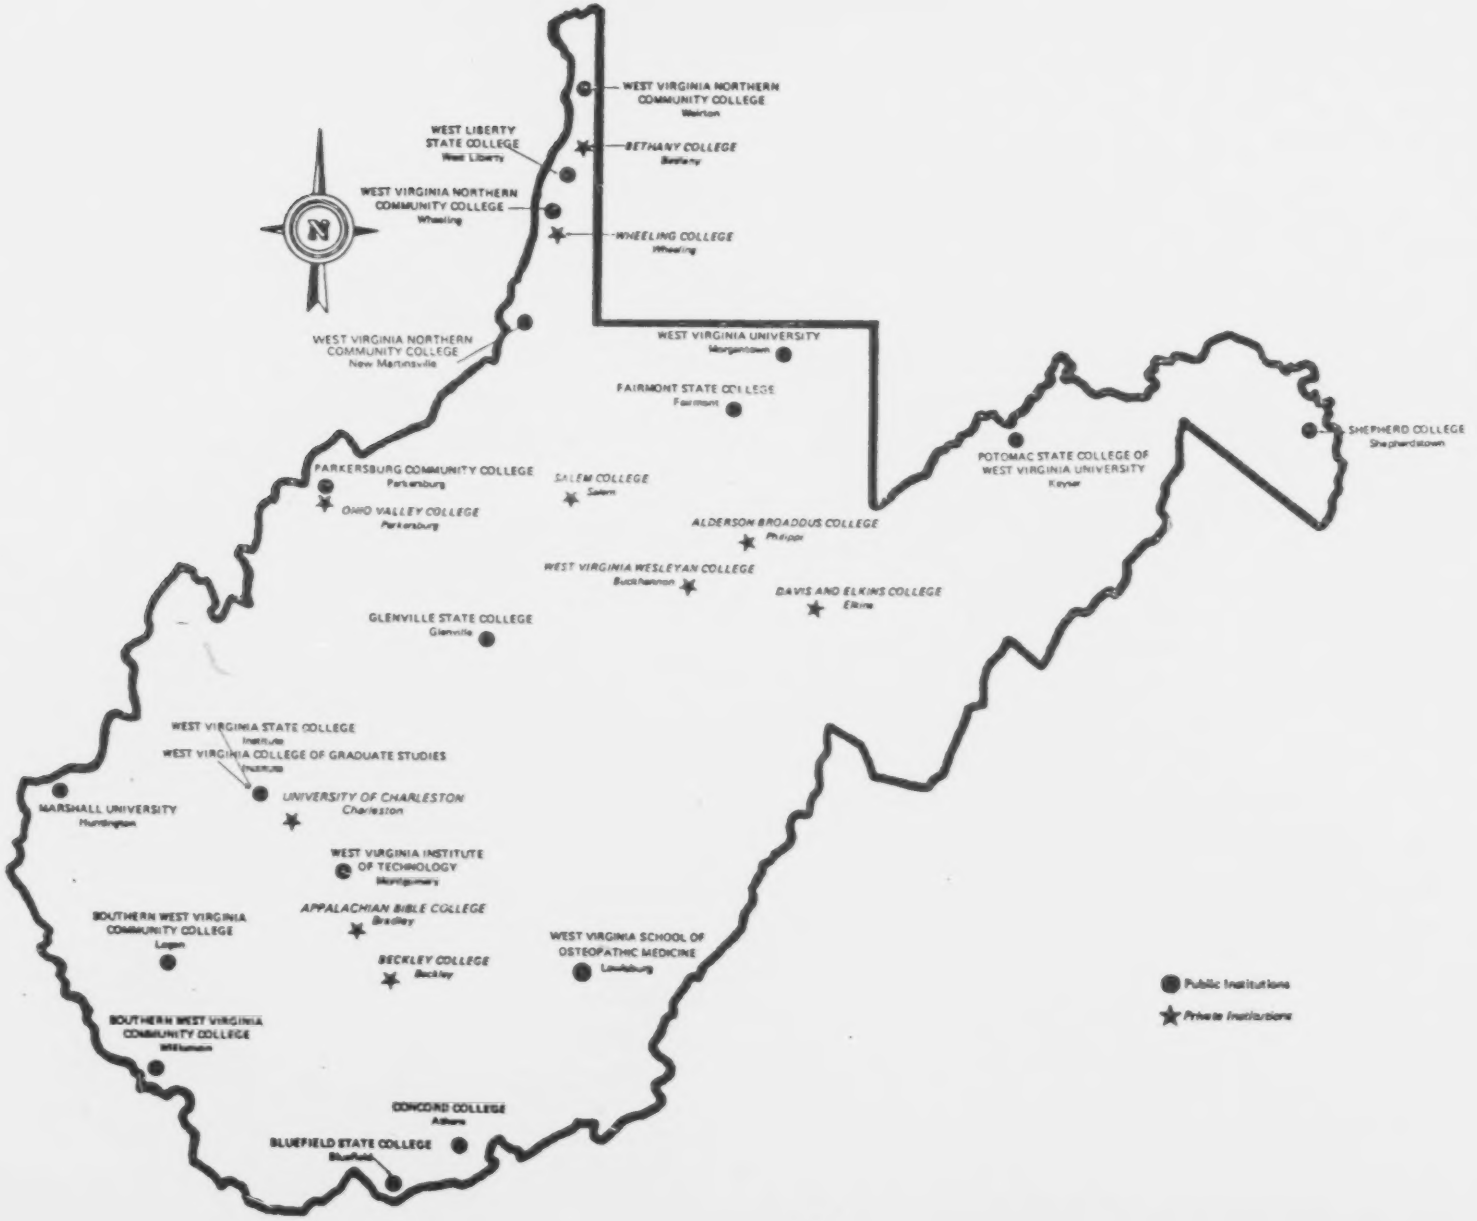
LOCATION OF WEST VIRGINIA INSTITUTIONS OF HIGHER EDUCATION



INTRODUCTION

For the fourth year this publication of the West Virginia Board of Regents combines reports which in previous years were published as four separate reports. Chapter 1, "Enrollment," presents the headcount and full-time equivalent (FTE) enrollment reported by the State's public and private institutions of higher education for the Fall 1985 term. Chapter 2, "Degrees Conferred," presents an analysis of degrees awarded by the State's public and private institutions of higher education during the 1984-85 academic year. Chapter 3, "Faculty Characteristics," presents information about the full-time and part-time faculty members in West Virginia's public colleges and universities, as of the Fall 1985 term. (The characteristics analyzed in Chapter 3 include academic rank, highest earned degree, years of experience, age, sex, and average nine-month salary.) Chapter 4, "Fiscal Data," presents data on revenues and expenditures at the State's public colleges and universities during the 1984-85 fiscal year.

The 16 public and the 10 private institutions of higher education which reported data for inclusion in this publication are listed on page ii and a map showing their locations appears on page viii. The Board of Regents is grateful for the cooperation of the private institutions in submitting the data on enrollment and degrees conferred which are reported in Chapters 1 and 2.

CHAPTER 1

ENROLLMENT (FALL 1985)

The following student enrollment reports, which are based on data submitted by the State's public and private institutions of higher education, were current as of the days following registration for the Fall 1985 semester. Ten year trends in headcount and full-time equivalent enrollment, as well as a distribution by sex, residence, and attendance status, are also included.

Headcount enrollment is a count of the number of individual students attending a college or university. The tables in this Chapter summarize credit headcount enrollment in all institutions of higher education in West Virginia. In addition, each institution's enrollment is reported by sex of student, attendance status, level, and residence.

The full-time equivalent (FTE) enrollment reported for each public institution of higher education is the nationally accepted statistic used to equate to the norm those student workloads which are greater or less than the average full-time student workload.

The FTE enrollment, which is the principal measure of total services to students by the West Virginia public institutions, peaked at 55,307 in Fall 1981 and has since declined to 51,005. There were two five-year periods of growth followed by leveling, beginning in 1973 and 1978, respectively.

It should be noted that the decreases in headcount enrollment occurring in 1978,1984 and 1985 are reflected in more modest drops in full-time equivalent enrollment, principally because the decrease was largely in the number of part-time students.

Although a five percent drop in enrollment occurred from 1983 to 1984 and again in 1984 to 1985, these can be attributed largely to increases in tuition costs without increases in available financial aid.

Definitions of the various enrollment categories used by the Board of Regents are presented on the following pages.

DEFINITIONS

Bachelor's Credit Student. An undergraduate enrolled in a two-year college transfer program or in a four-year or five-year bachelor's degree program who has not completed the sophomore year.

Career-Technical Student. A lower-level undergraduate enrolled in a postsecondary certificate, diploma, or associate degree program of less than four years which prepares for immediate employment.

First-Professional Course. A course designed primarily for students enrolled in a program leading to a first professional degree.

First-Professional Student. A student enrolled in a program leading to the first professional degree in Dentistry (D.D.S.), Law (J.D. or LL.B.), or Medicine (D.O. or M.D.).

First-Year Graduate Student. A graduate student who is enrolled in a master's degree program or who has completed fewer than 36 semester hours of graduate credit.

Foundation Level Course. A course which is preparatory for admission to a career-technical, college transfer, or four-year or five-year bachelor's degree program.

Full-Time Student. A student enrolled for credit equal to at least 75 percent of the normal full-time load. For most undergraduates this is 12 semester hours; for graduate students, nine semester hours.

Full-Time Equivalent (FTE) Student. A statistic derived from the student-credit-hour productivity of an institution.

A. Undergraduate FTE: the equivalent number of students derived by dividing by 15 the total undergraduate student credit-hours produced per semester in foundation, lower-level, and upper-level courses.

B. First Professional FTE: the equivalent number of students derived by dividing by 15 the total first professional student credit-hours produced per semester in first professional courses (Law only).

C. Graduate FTE: the equivalent number of students derived by dividing by 12 the total graduate student credit-hours produced per semester in graduate courses.

D. Medical FTE: the same as the headcount enrollment (Dentistry and Medicine only).

Graduate Level Course. A course designed for students enrolled in a graduate degree program and normally limited to students holding a bachelor's degree.

Graduate Level Student. A student enrolled in a master's or doctoral degree program other than the first professional degree programs in Dentistry, Law, and Medicine.

Headcount. A student enrolled in one or more courses for credit.

In-State Student. For West Virginia public institutions, a student is assessed the tuition and fees specified for a resident of West Virginia; for West Virginia private institutions, a student who lists West Virginia as the permanent address prior to enrolling in the institution.

Lower-Level Student. An undergraduate enrolled in a postsecondary career-technical, certificate, diploma, or associate degree program, in a two-year college transfer program, or in a four-year or five-year bachelor's degree program who has not completed the sophomore year.

Non-Credit Student. A student who is enrolled only in non-credit courses or who is auditing credit courses.

Out-of-State Student. For West Virginia public institutions, a student who is assessed the tuition and fees specified for a non-resident of West Virginia; for West Virginia private institutions, a student who does not list West Virginia as the permanent address prior to enrollment in the institution.

Part-Time Student. A student enrolled for credits equal to fewer than 75 percent of the normal full-time load. For most undergraduates this would mean fewer than 12 semester hours.

Unclassified Student. A student who cannot be classified by level. Many unclassified students are permitted to take a limited or special selection of degree-credit courses without regard to requirements for a degree.

Undergraduate Student. A student who has not yet obtained a bachelor's degree.

Upper-Level Course. A course designed for juniors and seniors which is not normally open to freshmen and sophomores.

Upper-Level Student. An undergraduate enrolled in a bachelor's degree program who has completed the sophomore year.

IN-STATE	50,142	56,308	57,289	58,408	55,589	57,019	58,119	57,126	57,731	58,203	56,014	54,963
OUT-OF-STATE	11,518	12,654	13,199	13,182	13,203	13,585	13,430	14,879	14,172	13,851	12,539	11,781
TOTAL	61,660	68,962	70,488	71,590	68,792	70,604	71,549	72,005	71,903	72,054	68,553	66,744

The number of full-time students has remained fairly constant throughout the system for more than ten years. The low of 39,584 increased to 44,355 in 1983. In contrast, part-time students increased an average of 1,251 per year from 1971 to peak at 29,582 in 1979 then decrease an average of 728 students per year to 25,216 in 1985. The number of male students has held rather constant while the female population has grown substantially. Females increased as a proportion of the total population at a steady pace from 43.3 percent in 1974 to 55.0 percent in 1985.

The number of non-resident students increased steadily to peak at 14,879 (20.0 percent of total enrollment) in 1981. The following years' substantial increases in non-resident tuition may have been the cause of a steady decline in number and percentage of out-of-state students.

#Although not a separate entity, it is often important to distinguish the WVU Medical Center for budgetary considerations. It is here defined for FTE purposes as student credit hours generated in courses identified as Health with the exception of Pharmacy, Rehabilitation Counseling, and Speech Pathology and Audiology.

*Headcounts are used for medical and dental students. WVU has 341 medical students and 169 dental students.

CHAPTER 2

DEGREES CONFERRED (1984-85)

The tables in this Chapter present an analysis of the degrees conferred during the 1984-85 academic year by the public and private institutions of higher education in West Virginia, as well as ten-year trends in total degrees conferred.

DEFINITIONS

Nationally accepted definitions and principles have been used in the collection and classification of data for this Chapter. The 29 academic areas of study included in the report (excluding the West Virginia Board of Regents' B.A. degree program) have been extracted from the publication by the National Center for Educational Statistics, A Classification of Instructional Programs. Definitions of the various degrees are as follows:

Associate Degree. A degree awarded upon completion of at least two, but fewer than four, years of work beyond high school.

A. Career-Technical -Associate degree programs in technological and occupational areas that are designed primarily to prepare for immediate employment.

B. Pre-Baccalaureate -Associate degree programs that are designed to provide a two-year general education and/or to be chiefly or wholly creditable toward a bachelor's degree.

Bachelor's Degree. A degree granted upon completion of an educational program requiring at least four, but not more than five, years of academic work in the liberal arts, sciences, or professional fields.

First Professional Degree. A degree which signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance, and a total of at least six academic years of college work for completion. First professional degrees included in this report are the Doctor of Dental Surgery (D.D.S.), the Doctor of Medicine (M.D.), the Doctor of Osteopathy (D.O.), and the Juris Doctor (J.D.).

Master's Degree. A degree customarily granted upon successful completion of one (sometimes two) academic years of work in the liberal arts and sciences beyond the bachelor's degree. The master's degree in professional fields is an advanced degree beyond the first professional, but below the Ph.D. degree.

Doctoral Degree. The highest academic degree in a given discipline or profession, based generally on three or more years of graduate work, satisfaction of a foreign language requirement, and completion of a special study resulting in a dissertation approved by a committee of the faculty.

The number of total degrees awarded per year has held remarkably constant over the ten-year period. However, the percentage of females awarded the total number of degrees increased steadily over the period, from 43.7% in 1973-74 to 51.94% in 1981-82, then appeared to level off.

Other discernable patterns include: 1. A steady increase in the number of First Professional degrees, due to the addition of two medical schools in that time period, 2. A steady increase averaging 6.5% per year in the number of associate degrees, reflecting increased enrollment in community college and career-technical programs, and 3. The number of master's degrees rose steadily from 1,777 to peak around 2,650 per year from 1977-80, then started to decline.

CHAPTER 3

FACULTY CHARACTERISTICS (FALL 1985)

The West Virginia Board of Regents presents in this Chapter analyses of faculty characteristics and remuneration at each West Virginia public institution of higher education. All analyses are based on the Fall term of the 1985-86 academic year.

Faculty members included in this report are those individuals engaged in instruction, either on a full-time or part-time basis, who were responsible for, or in charge of, a class, quiz, drill, or laboratory section. Teaching assistants, teaching fellows, lecturers, and laboratory assistants are included only if they meet the preceding criteria. Excluded are student assistants, teaching assistants, and other personnel engaged in subordinate functions.

Faculty of the following classifications have been excluded from this Chapter: faculty in the medical schools, faculty contributing their services, and faculty compensated from funds not controlled or disbursed by their respective institutions. Included in this last group are military science instructors, instructors receiving no pay, and faculty paid through the auspices of other public agencies at no expense to the institution.

DEFINITIONS

Full-Time Faculty Members. A faculty member employed by the institution in a full-time capacity, either teaching or teaching plus additional administrative duties. In the latter case, the full-time faculty member is engaged in teaching at least one course.

Full-Time Faculty Member Engaged Exclusively in Instruction. A faculty member employed by the institution in a full-time capacity, whose duties lie exclusively in teaching rather than partially in administration, or some other function.

Part-Time Faculty Member. A faculty member employed to teach in a part-time capacity, usually employed on a per-course basis. Generally, part-time faculty do not receive fringe benefits, and since remuneration is based solely on teaching load rather than on advising and administrative duties their pay is at a substantially lower rate than that of full-time faculty.

Highest Degree Held by Faculty. The fraction of faculty possessing a terminal degree (doctoral or professional) is one indicator of academic quality of an institution. The proportion of faculty with a doctorate also influences the expenditures for faculty salaries.

Nine-Month Salary. A typical academic year contract, which may be for nine or ten months of duties to the institution. Whether the contract salary is paid in nine or twelve monthly increments is not relevant. The amounts shown under nine-month salary data do not include summer school salaries, which are not a part of the regular academic year.

CHAPTER 4

INTRODUCTION

Since its inception in 1969 the Board of Regents has played an active role in the management of all facets of public higher education. Among its many responsibilities is the supervision and control of the financial affairs of its sixteen institutions. This chapter of current operating revenue and expenditures summarizes the financial condition and current operations of the State System of Higher Education. Information presented in this report is drawn from financial reports completed by each institution shortly after the close of the fiscal year. The period covered by this report extends from July 1, 1984 through June 30, 1985.

By design, this chapter deals with a discussion of current operating revenue and expenditures. Therefore, certain special fund groups such as Loan Funds (student loans), Plant Funds (new construction, bond principal and interest, property acquisition, etc.), Agency Funds (institution acting as financial agent for payor) and the like have been omitted. Current funds are categorized as follows: Educational and General, Auxiliary Enterprise, Student Aid, and Medical Schools and Medical Center and will be further defined and classified in the text of this report.

Wherever possible, tables in this chapter attempt to group similar institutions. In West Virginia, the eight four-year colleges and three community colleges constitute similar groups, while the two universities, the College of Graduate Studies, and the branch college are essentially dissimilar. In addition, the Marshall University School of Medicine, West Virginia School of Osteopathic Medicine, and the West Virginia University Medical Center are inherently different, and although presented together the data should not be used for comparative purposes.

Although certain comparisons among institutions are possible, and often beneficial, the reader should recognize that any interpretations drawn may be distorted due to differences in enrollment, academic programs, funding levels, geographic locations, faculty characteristics, and other factors. Institutions may also vary with respect to the degree to which they attempt to feed, house, and provide services of a non-educational nature to students, faculty, and staff.

The text of this chapter is divided into four basic sections. The first provides a summary of the total operations of the State System of Higher Education. The second and third sections contain detailed analyses of educational and general revenue and expenditures respectively. A fourth section provides a summary of other revenue and expenditures.

SECTION I. SUMMARY OF TOTAL OPERATING REVENUE AND EXPENDITURES

Tables 4.1 and 4.2 on the preceding pages reflect the total operating revenue and expenditures of the State System of Higher Education for fiscal year 1984-85. They are presented and categorized as follows:

Educational and General operations of the institutions include the basic Instruction, Research, and Public Service activities as well as the necessary ancillary services of Academic Support, and Physical Plant Operations.

Auxiliary Enterprise operations primarily involve providing services of a non-educational nature to students, faculty and staff. Even though the existence of these services is important, they are not directly related to the fulfillment of the institutions' educational objectives. Included among these operations are housing and dining, intercollegiate athletics, student unions, bookstores and certain parking and transportation systems.

Medical Schools and Medical Center relate to the operation of the state's two medical schools, its medical center, and necessary support services.

Student Aid relates to gifts, grants endowments, or other sources of income which are specifically designated for student scholarships, grants, awards, and the like.

Table 4.3 below provides a comparison of total operating revenue and expenditures for fiscal year 1984-85 while Table 4.4 on the following page provides similar comparisons for the 1984-85 and four previous fiscal years.

TABLE 4.3 TOTAL OPERATING REVENUE AND EXPENDITURES FISCAL YEAR 1984-85 (in thousands)

EXPENDITURES:					
Educational and General	$163,660	$180,252	$184,594	$200,760	$216,165
Auxiliary Enterprises	43,806	52,121	57,916	62,091	62,112
Medical Schools and Medical Center	95,346	94,135	99,159	98,395	24,014*
Student Aid	15,642	16,259	17,169	21,712	52,187
Total Operating Expenditures	$318,454	$342,767	358,838	$382,958	$354,478*
Operating Surplus (or Deficiency)	$ 700	$ 6,089	$ 5,318	$ 15,547	$ 8,627

* Revenue and expenditures for 1984-85 exclude WVU Hospitals, Inc. which was converted to a private not-for-profit corporation on July 1, 1984. Prior years include such revenue and expenditures.

METHODS OF ANALYSIS

There are two commonly utilized methods of analyzing educational and general revenue and expenditures. One compares the percentage relationship of each revenue source or expenditure function to total revenue or expenditures. This technique reflects the comparative degree of support provided by a specific revenue source. For expenditures, it indicates the level of support for one function compared to that given another function, and also reflects the emphasis a particular institution places on various expenditure categories.

A second approach is to consider revenue and expenditures on a per full-time equivalent (FTE) student basis. The FTE student is the nationally accepted means to translate student credit hours produced by an institution into a more manageable statistic. This statistic is most useful in comparing similar type institutions. It should be recognized that some educational and general activities, such as Research, Public Service, and Physical Plant Operations are not directly related to enrollment.

Tables 4.5-4.9 in Section II, and Tables 4.10-4.13 in Section III include percent of total and per FTE comparisons for educational and general revenue and expenditures respectively. For purposes of per FTE comparisons, these tables use an annualized count of full-time equivalent students, which is comprised of the average of Fall and Spring semester FTE enrollment added to Summer FTE enrollment.

SECTION II. EDUCATIONAL AND GENERAL REVENUE

Educational and General operating revenue is typically classified according to source. This report classifies educational and general revenue according to six major sources. A brief description of each source follows:

1. Tuition and Fees--Revenue available for use by an institution from fees assessed students for educational and general purposes is included in this category. Included are those prescribed fees that must be paid by the student as a condition for applying for admission, enrolling in the institution, enrolling in specific courses, and graduation from the institution. Also included are those student fees allocated by the Board of Regents to supplement institutional operating budgets. Excluded from this report are all other fees restricted by West Virginia statute from use as operating revenue.

2. Governmental Appropriations--Includes allocations to the colleges and universities by the Board of Regents from the State Legislature's annual operating appropriation. These allocations are restricted by the State budget categories of Personal Services, Current Expenses, Repairs and Alterations, Equipment, and certain other items. Amounts that were unspent and reverted to the State Treasury at the end of the fiscal year are deducted from the original allocations. Also included are federal appropriations received by the State's Land Grant institution, West Virginia University.

3. Governmental Grants and Contracts--Include revenue received from local, state, or federal government agencies to conduct specific activities or programs, or to provide designated services.

4. Private Gifts, Grants, and Contracts--Revenue received from private individuals, businesses, industries, foundation, and the like which is available for expenditure for educational and general purposes is included in this category.

5. Sales and Services--Includes revenue received by the institution from the sale of goods or services produced in conjunction with its educational program, such as agricultural and dairy products, films, publications, and the like.

6. Other Income--Revenue available for educational and general purposes which is not classified elsewhere, such as interest income, is included here.

Tables 4.5-4.9 on the following pages provide information and comparisons with respect to educational and general revenue.

*State General Fund Revenue comprises the major source of Governmental Appropriations.

SECTION III. EDUCATIONAL AND GENERAL EXPENDITURES

Expenditures for educational and general purposes include those expenditures for Instruction, Research and Public Service, as well as the necessary ancillary activities of Academic Support, Student Services, Institutional Support and Physical Plant Operations and are defined as follows:

1. Instruction. Includes all expenditures of the instructional departments and schools of the institutions, such as instructional salaries and benefits, office and classroom supplies, equipment, and other related operating costs. This category also includes departmental research which is not separately budgeted or organized.

2. Research. Includes all expenditures for separately organized and budgeted research activities, such as research bureaus, centers, institutes, and experiment stations. This category includes both externally financed contractual research and institutionally organized and financed research.

3. Public Service. Includes all expenditures for noninstructional activities designed primarily to serve the general public, including the costs of all conferences, workshops, public radio and television operations, cooperative extension services, and similar activities.

4. Academic Support. Includes expenditures designed to assist the institution in meeting its basic instruction, research, and public service mission by providing support services such as libraries, media and learning centers, academic computer support, as well as general academic administration, and faculty and curriculum development activities.

5. Student Services--Includes all expenditures for services to student, such as admissions and registrar's offices, guidance and counseling services, placement services, health services, financial aid administration, student administration, and the like.

6. Institutional Support--Includes all expenditures of the general executive and administrative offices serving the institution as a whole as well as those expenditures of a general character not relating to any specific division or segment of this institution.

7. Physical Plant Operation and Maintenance-Includes all expenditures for the operation and maintenance of educational and general buildings and grounds such as utilities, and custodial services.

Auxiliary Enterprise. Revenue and expenditures of the various colleges and universities from operations of a noneducational nature are categorized as Auxiliary Enterprises and summarized in Tables 4.14 and 4.15 on the following pages. The six major categories of Auxiliary Enterprises include Housing and Dining, Student Union, Bookstore, Intercollegiate Athletics, Parking and Transportation, and Other.

The degree to which an individual institution provides Auxiliary Enterprise services to its students is dependent to a large extent on its size and type. An institution with a large resident population must necessarily provide more comprehensive services than one in which the majority of students are commuters.

Medical Schools and Medical Center. The West Virginia Board of Regents operates two medical schools and a comprehensive medical center as part of the State System of Higher Education, including the Marshall University School of Medicine, the West Virginia School of Osteopathic Medicine, and the West Virginia University Medical Center. Although financial information for the three schools is presented together, no attempt should be made to compare them due to the differences in their educational programs and supporting functions.

Revenue and expenditures in support of medical and health sciences education in West Virginia is summarized in Table 4.16 and categorized in the same manner as that of regular college and university operations.

Student Aid--Revenue from gift, grants, endowments, and the like provided for the purpose of assisting individual students in defraying the costs of higher education is categorized as Student Aid. This aid may be in the form of need-based grants, awards for academic excellence, or combinations of these and other factors. Excluded from Student Aid presented in this chapter are privately administered scholarships and grant programs, such as those normally awarded by private foundations, trusts and institutions, and student loans. Student Aid revenue and expenditures for Fiscal Year 1984-1985 are presented in Tables 4.1 and 4.2 on pages 108 and 109.
